

Introduction to Mechanical Components

The aim of this introductory course is to provide learners with the ability and skills required to identify and explain the purpose and operation of different types of mechanical components, and how to maintain the components.

- ✓ INTRODUCTION TO MECHANICAL COMPONENTS
- ✓ INTRODUCTION TO MOTORS AND COUPLINGS
- ✓ INTRODUCTION TO MECHANICAL DRIVES
- ✓ INTRODUCTION TO PUMPS

At the end of this course learners will be able to:

- Explain the purpose and operation of gears, drives and couplings
- Understand common causes of wear to mechanical components
- Identify and name main mechanical components
